THE TRIBUNE.

NEW-YORK, WEDNESDAY MORNING, JULY 7

IF We publish this morning, in advance of any other paper in the country, a new Part of BARNABY RUDGE, received by us in the Britannia. We have another in hand, which we shall publish as soon as we can make room for it-probably on Saturday.

BCFAn interesting original letter from Vienna—the first of a series of observations on the Continent—is crowded out to-day, but will uppear in our next.

THE CELEBRATION on Monday went off with much rational hilarity and with less drunkenness and fighting, though with quite as much confusion, as usual on such occasions. The Booths swarmed around the Park, and liquor was very generally sold in them; but through the day we saw very few cases of gress intoxication. The only fight we saw was at the corner of Ann and Nassau-streets, as we were coming to the office in the morning, in which one miserable wretch had his face herribly mangled. Another fight occurred near the Washington Market about noon, in which both the combatunts were so severely bruised as to be carried away searly

The Military display was very brilliant, though not so numerous as on many previous occasions. The troops gathered upon the Battery, where they were reviewed, first by the Commander of the Division, Major General Sandford, and afterward by Governor Seward. The column having formed its line of march, passed the Mayor and Common Council in review in front of the City Hall, where the spectacle was closed by a fen de joic.

THE TEMPERANCE PROCESSION AND ORATION were the most attractive and ennobling events of the day. At half past 12 the several Societies began to form, but were kept from moving till after 2 by the non-arrival of their Music, which was engaged with the Military. (The asserti-a that the sons of Harmony were detained by the odor of the Corporation punch is of course a scandal, which we repel most indignantly.) When it did start, the Procession, numbering some 1200, moved over its designated route in good time without accident or delay, and reached the Tabernacle before 4 e'clock. There, after Music, the Declaration of Independence was read by Judge M. M. Noah, and a forcible Oration delivered by Hon. B. F. BUTLER. An immense concourse listened with profound and gratified attention. The exercises were concluded about 6 o'clock.

Mr. BROWNSON's Oration at Washington Hall we hear commended, though the noise in Broadway marred the pleasure and profit of listening. His theme was the Elevation of spect to persons or parties, though of course he belabored tion will be printed.

The various places of amusement were througed in the evening, and the display of Fire-Works at each, as well as Prince-st.; slightly injured. A house in Marion-st.; considat the City Hall, was remarkably imposing. About half-past erably damaged. In Seventeenth-st. near Ninth Avenue, der storm, which cleared and cleaned the streets.

A little boy was run over and somewhat bruised at the outside, into which a hole was cut after the upper covering corner of Houston and McDougal-streets. The horses atgot through the front window and seized the reins.

VERMONT .- The Whig State Convention assembled at Montpelier on the 30th ult. and nominated the following ricket for State Officers:

For Governor-Col. CHARLES PAINE of Northfield;

" Lieut. Gov.-Wattstill R. RANNEY of Windham " Treasurer-John Spaining of Montpelier.

This is an entirely new ticket. None of the candidates nominated by the Abelitionists have been adopted. The vote in Committee for Governor on the first ballot was for Col. Paine 15; Hon. Chas. K. Williams 6; Jacob Collamor 5; Heman Allen of Burlington 3. Col. Paine was an efficient Delegate to the Harrisburg Convention.

Visits of this kind to our Government vessels, are attended with the best results, they familiarize the officers of the Navy with men who hold the prominent stations under State Governments, and are the means of cultivating relations which are not only pleasant. but which may in emergencies prove advantageous to the country. The Navy Department made an excellent choice in selecting the Scientific gentleman who commands this station. Few men in the service are as well calculated to discharge the various duties devolving upon the office, as Commodore Perry.
